

Activity Lesson Opener

For use with pages 719–726

SET UP: Work with a partner or in a group.**YOU WILL NEED:** • construction paper • scissors • tape

Cut out and trace around the polygons at the bottom of the page to draw an enlargement of each figure on construction paper. Cut along solid lines, fold along dashed lines, and use tape to create a three-dimensional object. Tell how many and what type of polygons form each object.
