

WARM-UP EXERCISES

For use before Lesson 2.2, pages 79–85

Write the converse of each statement.

1. If M is the midpoint of \overline{AB} , then $AM = MB$.
 2. If $AB + BC = AC$, then points A , B , and C are collinear.
 3. If $|x| = 6$, then $x = 6$ or -6 .
 4. You score a goal if the ball crosses the goal line.
-

DAILY HOMEWORK QUIZ

For use after Lesson 2.1, pages 71–78

Using the true conditional statement, “Constrictors such as pythons are not poisonous,” write each of the following.

1. Rewrite the statement in if-then form.
2. Write the converse of the if-then statement.
3. Write the contrapositive of the if-then statement.
4. Write the hypothesis and conclusion of the if-then statement.
